Note: The boys' race will always precede the girls in the same race and Division I will always precede Division II. Due to the unprecedented challenge of running six state championship track meets simultaneously (three boys/three girls), the meet management has determined that fewer chances for error will occur by leaving the order of events as they were for 2005. This is a departure from the past practice of alternating boys and girls events from one year to the next.

Note: The boys' race will always precede the girls in the same race and Division I will always precede Division II. Due to the unprecedented challenge of running six state championship track meets simultaneously (three boys/three girls), the meet management has determined that fewer chances for error will occur by leaving the order of events as they were for 2005. This is a departure from the past practice of alternating boys and girls events from one year to the next.
